

Henry Turbo *HVR200T-2*

Again the Henry Turbo embodies all the unique Henry features including his famous smile but to the professional specification has been added two exceptional additional features:-

The Microfresh filtration system - *Micro* being 98% efficient and *Fresh* by virtue of a giant activated charcoal filter membrane sandwiched between twin Tritex filters providing a high degree of odour control.

The Turbo Electric Power Brush system is truly unique with its 24 volt floating, self-adjusting power brush design and removable brush roll for easy cleaning.

Twinflo'

Added to this is a whole host of standard additional accessories to cover the full range of cleaning tasks.

Without doubt Henry Turbo is a serious model for extensively carpeted homes and also for pet owners raising the overall cleaning standard to a new improved level.

Motor	Power	Airflow	Suction	Capacity	Range	Weight	Dimensions
1200W	230V AC 50/60Hz	45 L/sec	2600mm	9L	26.8m	7.0Kg	340 x 340 x 370mm
